TOOLS:

- Double-Sided Tape (1)
- Utility Scissors (1)

Step 1 — Hull

- Peel off double sided tape and apply to one side of the broken hull.

Step 2

- Cut the tape with scissors as close to the shape of the broken hull as possible.

Step 3

- Peel off the other side of the tape and stick the two sides together.

To reassemble your device, follow these instructions in reverse order.
